Question # 14 of 20 (Start time: 11:05:30 PM, 29 January 2023)

Which of the following security practices come under "construction" function of software assurance maturity model?

Select the correct option

- Education & guidance, policy & compliance, strategy & metrics
- Threat assessment, vulnerability management, security testing
- Design review, code review, security testing
- Threat assessment, security requirements, security architecture

Scanned with CamScanner

Question # 13 of 20 (Start time: 11:04:50 PM, 29 January 2023)

Policy & compliance practice of "governance" function of software assurance maturity model is focused on_____

Select the correct option

○	On arming personnel involved in software lifecycle with knowledge and resources to design develop and deploy secure software
○	On proactively specifying the expected behavior of software with respect to security
○	Understanding and meeting external legal and regulatory requirements
○	On establishing a framework within an organization for a software security assurance program

Scanned with CamScanner

How many TCP and UDP ports are scanned in a default scan?

Select the correct option

- 1900 UDP ports and 180 TCP ports
- No ports are scanned by default
- 1900 TCP ports and 180 UDP ports
- 65, 535 TCP ports

Scanned with CamScanner

What information we get from open TCP and UDP ports?

Select the correct option

○	Which OS is running on the host
○	Whether host is alive or not
○	Which services are running on host
○	Network details of the host

Scanned with CamScanner

Which of the following are common vulnerability scanners?

Select the correct option

- ○ Nessus & rapid7
- ○ Openvas & qualys
- ○ Forcepoint & redwolf
- ● Nessus, rapid7, Openvas & qualys

Scanned with CamScanner

Question # 20 of 20 (Start time: 11:01:18 PM, 29 January 2023)

Which of the following statement is correct?

Select the correct option

- NVD is superset of CVSS
- NVD is superset of CVE
- NVD is an open standard for assigning vulnerability impacts
- CVE is superset of NVD
