Question # 8 of 10 (**Start time: 07:22:08 PM, 22 December 2022**)

Every individual's distinctive, genetically determined response to environment is called:

Select the correct option

☐	Canalization
☐	Heritability estimates
☐	Genetic-environmental correlation
☐	Range of reaction

Team VU Global

Question # 4 of 10 (Start time: 07:14:47 PM, 22 December 2022)

Which of the following mental abnormality has been proved as being genetically transferred by twin studies?

Select the correct option

☐	Schizophrenia
☐	Amnesia
☐	Antisocial behavior
☐	Criminality

Team VU Global

Question # 5 of 10 (Start time: 07:32:02 PM, 22 December 2022)

According to Piaget, a child achieves understanding of symbols and egocentrism in the age of two to seven years. It is:

Select the correct option

Relo

☐

Sensorimotor stage

☐

Formal operational stage

☒

Preoperational stage

☐

Concrete operational stage

Team VU Global

Question # 10 of 10 (Start time: 07:25:33 PM, 22 December 2022)

While measuring the changes of intelligence in children, if you take different age groups and measure them at a same time then it would most pro

Select the correct option

Sequential study

Longitudinal study

Cross sectional study

Micro-genetic study

Team VU Global

Question # 9 of 10 (**Start time: 07:23:40 PM, 22 December 2022**)

Which of the following can NOT be used as a synonym to classical conditioning?

Select the correct option

☐	Defendant conditioning
☐	Pavlovian conditioning
☐	Respondent conditioning
☐	Pavlovian reinforcement

✓ Not Sure

Question # 9 of 10 (Start time: 07:35:44 PM, 22 December 2022)

In Piaget's theory of development, mental process is considered to be constrained by two influences:

Select the correct option

- | | |
|-----------------------|--------------------------------------|
| ☐ | Cognitive scheme and disequilibrium |
| ☐ | Mental maturity and life opportunity |
| ☐ | Physical maturation and schooling |
| ☐ | Assimilation and accommodation |
- Team VU Global
- ✓

Question # 7 of 10 (Start time: 07:33:36 PM, 22 December 2022)

Which of the following represent the details of third step of training in conditioning?

Select the correct option

Conditioned stimulus-->Conditioned response

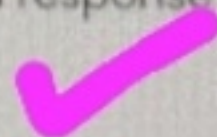

Unconditioned stimulus-->Unconditioned response

Neutral stimulus or conditioned stimulus

Conditioned stimulus-->Unconditioned stimulus-->Unconditioned response

Team VU Global

Question # 6 of 10 (Start time: 07:32:53 PM, 22 December 2022)

If a method measures, what it is supposed to measure, then such method is:

Select the correct option

☐	Consistent
☐	Authentic
☐	Valid
☐	Reliable

Question # 4 of 10 (Start time: 07:31:20 PM, 22 December 2022)

The brain size of a child is very close to the adult brain size at the age of:

Select the correct option

☐

4 years

☐

10 years

☒

6 years

☐

8 years

Team VU Global

Question # 3 of 10 (Start time: 07:29:53 PM, 22 December 2022)

NIROT is a noninvasive procedure that acquires:

Select the correct option

☐	Glucose
☐	Hemoglobin
☐	Carbohydrates
☐	Cortical hormone

Filters

Team VU Global

Question # 2 of 10 (Start time: 07:29:00 PM, 22 December 2022)

Total

Which of the following disease have symptoms of dementia, disorientation, hallucinations, restlessness and behavioral disturbances?

Select the correct option

☐

Parkinson's disease

☐

Alzheimer's disease

☐

Huntington's disease

☐

Delirium

Team VU Global

Question # 1 of 10 (Start time: 07:27:38 PM, 22 December 2022)

Experimental methods that are used in assessing child development:

Select the correct option

2

3

5

4

Filters

Modification of reflexive behavior that occurs between a specific and neutral stimulus is called as:

Select the correct option

☐	Cortical mosaic
☐	Behaviorism
☐	Classical conditioning
☐	Generalization

Team VU Global

Question # 6 of 10 (Start time: 07:19:21 PM, 22 December 2022)

According to Piaget, a child achieves understanding of symbols and egocentrism in the age of two to seven years. It is:

Select the correct option

 Reload

- | | |
|----------------------------------|----------------------------|
| ☒ | Preoperational stage |
| ☐ | Sensorimotor stage |

| ☐ | Concrete operational stage |

Question # 5 of 10 (Start time: 07:17:00 PM, 22 December 2022)

In Piaget's theory of development, mental process is considered to be constrained by two influences:

Select the correct option

☐	Physical maturation and schooling
☐	Cognitive scheme and disequilibrium
☐	Mental maturity and life opportunity
☐	Assimilation and accommodation

Team VU Global

Question # 3 of 10 (Start time: 07:13:04 PM, 22 December 2022)

All of the following can be measured by Neonatal Behavioral Assessment Scale (NBAS) in infants EXCEPT:

Select the correct option

☐	Adaptive responses and possible vulnerabilities
☐	Predicting development based on changes in scores
☐	Language abilities and fine motor skills
☐	Individual and cultural differences

Question # 2 of 10 (**Start time: 07:11:57 PM, 22 December 2022**)

Probability sampling is divided into how many types?

Select the correct option

Team VU Global

☐

2

☐

3

☐

5

☐

4

The concept of Zone of proximal development (ZPD) was introduced by:

Select the correct option

☐	Freudian
☒	Lev Vygotsky's
☐	Bruner
☐	Piaget's

Team VU Global

Question # 9 of 10 (Start time: 06:55:15 PM, 22 December 2022)

Total Marks: 1

If an observer goes to a class room and observes all occurrences of a specific behavior during a specific period of time in children, it will be an example of:

Select the correct option

☐	Specific sampling
☒	Event sampling
☐	Point sampling
☐	Time sampling

Question # 1 of 10 (Start time: 08:46:12 PM, 22 December 2022)

Which of the following disease have symptoms of dementia, disorientation, hallucinations, restlessness and behavior

Select the correct option

- ☐ Parkinson's disease
- ☐ Delirium
- ☐ Alzheimer's disease
- ☐ Huntington's disease

Team VU Global

Question # 7 of 10 (Start time: 06:52:14 PM, 22 December 2022)

Total Marks: 1

Assume you apply a test on some children and compile the results. After one month you apply the same test on the same sample and get the same results. You will be regarding that test as:

Select the correct option

☐	Consistent
☒	Reliable
☐	Valid
☐	Authentic

Question # 5 of 10 (Start time: 06:51:08 PM, 22 December 2022)

After the zygote forms and begins to divide grow, the process of cell division is largely known as:

Select the correct option

☐	Miscues
☐	Meiosis
☐	Mallan
☐	Mitosis

Team VU Global

Question # 3 of 10 (**Start time: 06:48:30 PM, 22 December 2022**)

In hemophiliac patients, there is usually:

Select the correct option

☐	Dementia
☐	Internal bleeding and Lack of clotting factor
☐	Lack of clotting factor
☐	Internal bleeding

Question # 10 of 10 (Start time: 09:54:28 PM, 21 December 2022)

Total Marks: 1

Which of the following carries out a logical analysis of the developmental changes taking place in an individual from beginning to end?

Select the correct option

☐

Developmental-structural perspective

☐

Structural-developmental perspective

☒

Structural-organismic perspective

☐

Organismic-developmental perspective

Team VU Global

Question # 9 of 10 (Start time: 09:53:31 PM, 21 December 2022)

Total Marks: 1

While studying about the effects of mobile phone on health, Ali asked closed ended questions with no options to express one's own point of view. This method is an example of:

Team VU Global

Select the correct option

☐	Archival research
☐	Structured interview
☐	Unstructured interview
☐	Observation

Question # 8 of 10 (start time: 09:52:02 PM, 21 December 2022)

Total Marks: 1

Ahmed is thinking of employing self-report measures in his upcoming research. All of the following methods can be a part of his research EXCEPT:

Select the correct option

☐

Questionnaire

☐

Psychological inventories

☐

Interview

☐

Case study

Team VU Global

Question # 7 of 10 (Start time: 09:51:11 PM, 21 December 2022)

Total Marks: 1

How many paired chromosomes are there in human body?

Select the correct option

☒

23

☐

25

☐

24

☐

26

Team VU Global

Question # 6 of 10 (start time: 09:49:51 PM, 21 December 2022)

Total Marks: 1

Salman is trying to find out the relationship between smoking and its negative health effects. The magnitude of correlation will be represented as a number between:

Select the correct option

☐

0 and 1

☐

1 and 2

☐

2 and 3

☒

-1 and +1

Team VU Global

Question # 5 of 10 (Start time: 09:49:09 PM, 21 December 2022)

Total Marks: 1

After the zygote forms and begins to divide grow, the process of cell division is largely known as:

Select the correct option

☐	Meiosis
☐	Miscues
☐	Malian
☐	Mitosis

Team VU Global

Question # 4 of 10 (start time: 09:48:09 PM, 21 December 2022)

Total Marks: 1

Which of the following disease caused by recessive alleles on chromosome 7 and create thick sticky mucus builds up in lungs and others part of body is:

Select the correct option

☐

Cystic Fibrosis

☐

Osteoporosis

☐

Sclerosis

☐

Spaceflight osteopenia

Team VU Global

Question # 8 of 10 (Start time: 07:34:22 PM, 22 December 2022)

Physical development in childhood occur during

Select the correct option

☐	1-2 Years
☐	2-7 Years
☐	7-11 Years
☐	11 and above Years

Question # 3 of 10 (Start time: 09:46:40 PM, 21 December 2022)

Total Marks: 1

The brain size of a child is very close to the adult brain size at the age of:

Select the correct option

☐

8 years

☒

10 years

☐

4 years

☐

6 years

Team VU Global

Question # 2 of 10 (Start time: 09:45:27 PM, 21 December 2022)

Total Marks: 1

Which one of the following stages of a child development spans from 7-11 years of age?

Select the correct option

☐

Genital

☐

Anal

☒

Latency

☐

Phallic

Team VU Global

Question # 1 of 10 (start time: 09:44:13 PM, 21 December 2022)

Total Marks: 1

If you employ some method in a qualitative research, which collects and analyzes descriptive and explanatory data, you are using most probably which of the following?

Select the correct option

☐

Archival method

☐

Case study method

☐

Method of correlation

☐

Observational method

Team VU Global

Question # 10 of 10 (Start time: 09:18:44 PM, 21 December 2022)

Total Marks: 1

While measuring the changes of intelligence in children, if you take different age groups and measure them at a same time then it would most probably refer to:

Select the correct option

Cross sectional study

Sequential study

Longitudinal study

Micro-genetic study

Team VU Global

Question # 8 of 10 (Start time: 09:16:10 PM, 21 December 2022)

Total Marks: 1

One of the most dominant gene diseases is:

Select the correct option

☐

Sickle cell anemia

☒

Huntington's disease

☐

Cystic fibrosis

☐

Tay-sachs disease

Team VU Global

While studying about the effects of mobile phone on health, Ali asked closed ended questions with no options to express one's own point of view. This method is an example of;

Select the correct option

☐	Observation
☐	Structured interview
☐	Archival research
☐	Unstructured interview

Question # 6 of 10 (Start time: 09:14:03 PM, 21 December 2022)

Total Marks: 1

Cystic fibrosis is a ----- disease.

Select the correct option

☐

Lung

☐

Bone

☐

Liver

☐

Intestinal

Question # 4 of 10 (Start time: 08:40:14 PM, 21 December 2022)

A patient with Down's syndrome has all of the following defects except:

Select the correct option

☐

Heart problem

☐

Shortened life span

☒

Backbone pain

☐

Extra chromosomes

Team VU Global

Which of the following is an organization of interconnected hypotheses that explains a number of observations or phenomena comprising of both formal and empirical aspects?

Select the correct option

☐

A hypothesis

☐

A research

☒

A theory

☐

A sample

Team VU Global

Question # 8 of 10 (Start time: 08:45:12 PM, 21 December 2022)

Genes present in human body is roughly estimated as:

Select the correct option

☐

20-25 thousand

☐

10-15 thousand

☐

15-20 thousand

☐

25-30 thousand

Team VU Global

Question # 7 of 10 (**Start time: 08:43:52 PM, 21 December 2022**)

How many stages of development are there in child growth?

Select the correct option

☐	4
☐	2
☐	3
☐	5

Team VU Global

According to correlation method of research, as maternal warmth increases then child compliance can:

Select the correct option

☐

Remains same

☐

Decreases

☐

Increases

☐

Finishes

Team VU Global

Assume you apply a test on some children and compile the results. After one month you apply the same test on the same sample and get the same results. You will be regarding that test as:

Select the correct option

- ☒ Valid
- ☐ Consistent
