Assignment No.2 BIO-202 Biochemistry I

Yasin Abbas Chaudhary
The Expert Zoologist

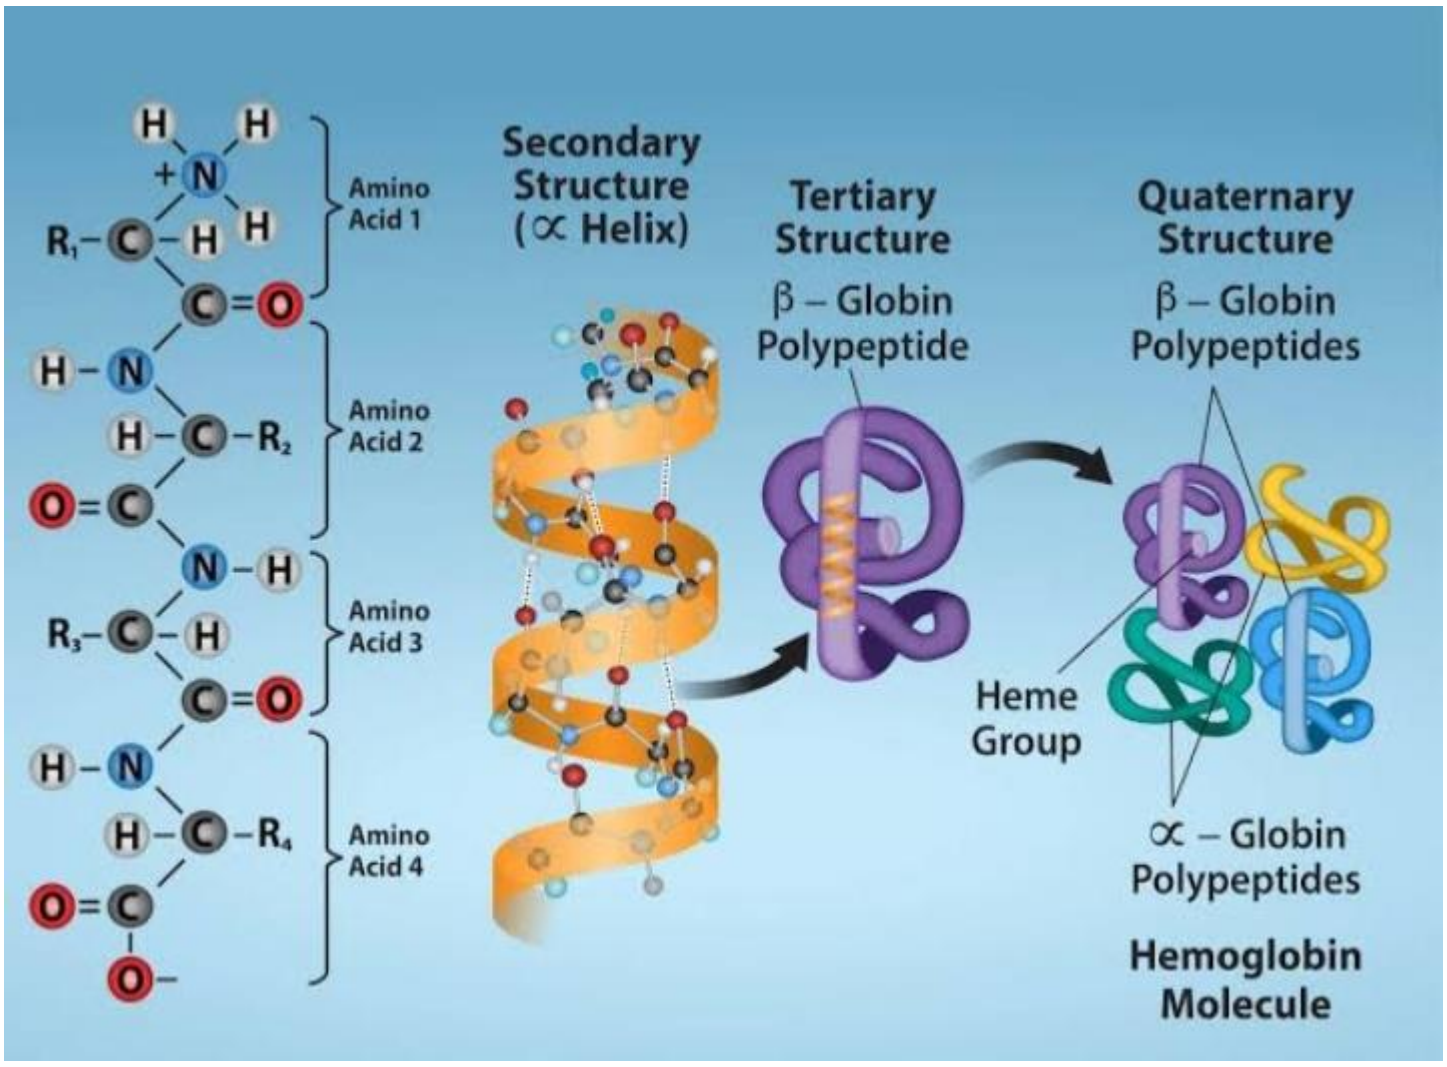

Note: **You have to draw four levels of protein structure on paper and then pics to pdf form.**

You can chose any pic from google that contain four levels of protein structure that is primary structure, secondary, tertiary, and quaternary structures.

Only draw pics on paper and write name id etc. on paper and then pics and pdf. Nothing to write in this assignment only pics.

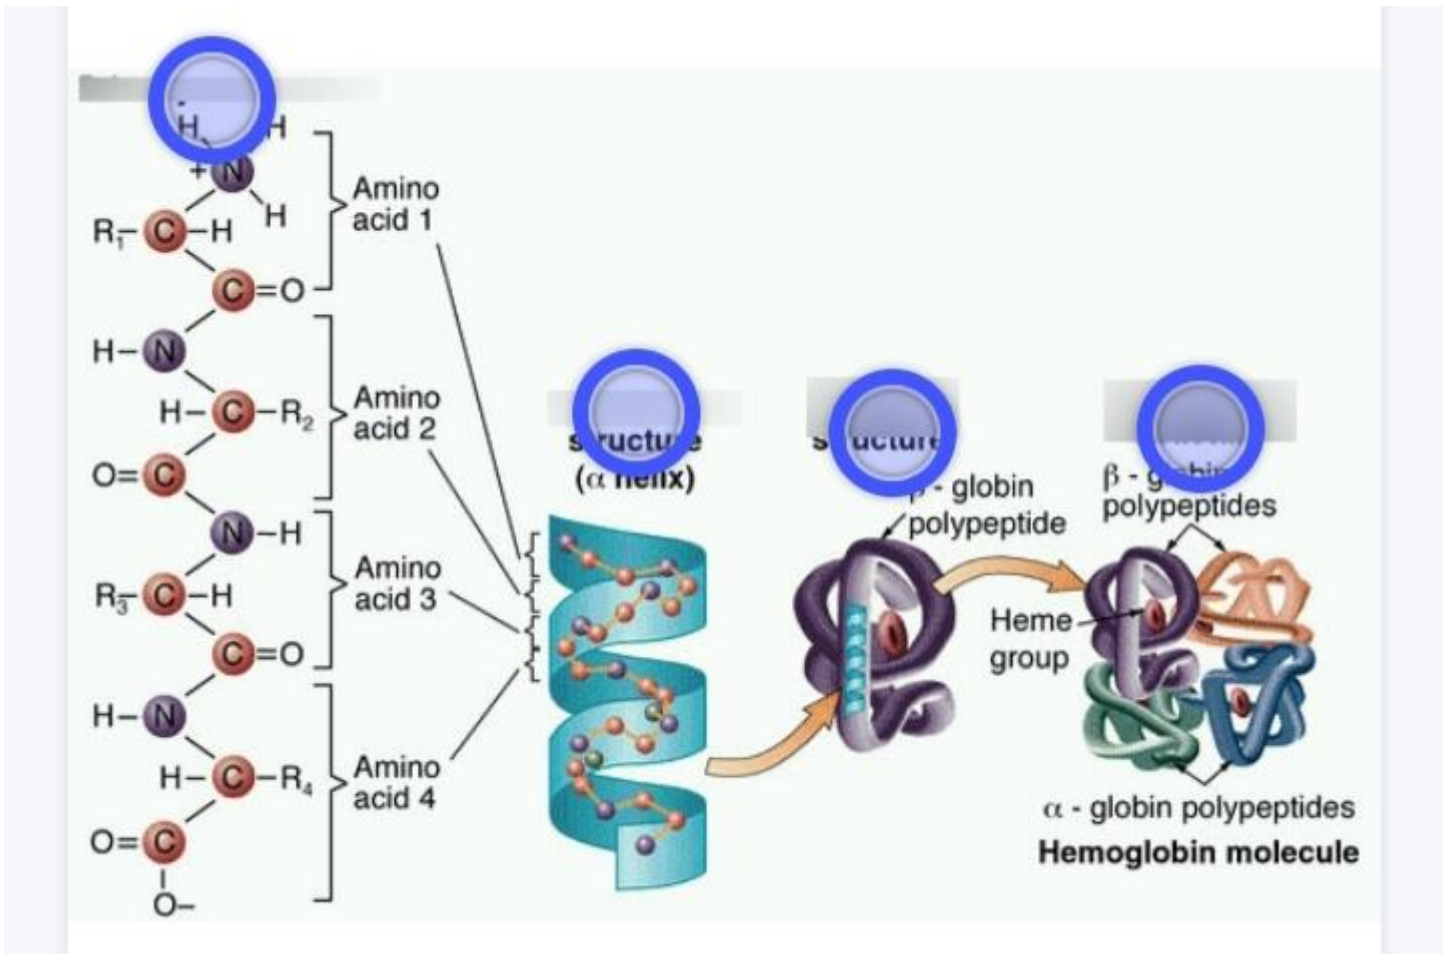

These are two solution u can draw any one of the following or any other from google:

Solution: 1

Solution: 2

Blue circle are not to be draw. First blue circle primary structure, second circle secondary…etc
