- A) `<img>`

- B) `<picture>`

- C) `<source>`

- D) `<div>`

Answer: B) `<picture>`

8. **What is the purpose of the `max-width` property for images?**

- A) To prevent images from scaling up beyond their original size.

- B) To stretch images to fill the container.

Get it Done

- C) To set a fixed width for images.
- D) To make images responsive only on mobile devices.

Answer: A) To prevent images from scaling up beyond their original size.

9. **Which Bootstrap class is used to create a responsive table?**
   - A) `.table-responsive`
   - B) `.table`
   - C) `.table-striped`
   - D) `.table-bordered`

   Answer: A) `.table-responsive`

10. **What is the primary benefit of using Bootstrap for web development?**
    - A) It requires extensive coding knowledge.
    - B) It provides a mobile-first approach and responsive design features.
    - C) It is only compatible with certain browsers.
    - D) It does not support JavaScript.

    Answer: B) It provides a mobile-first approach and responsive design features.

11. **Which of the following is NOT a Bootstrap grid class?**
    - A) `.col-xs-*`
    - B) `.col-sm-*`
    - C) `.col-md-*`
    - D) `.col-xxl-*`

    Answer: D) `.col-xxl-*`

12. **What does the `.jumbotron` class do in Bootstrap?**
    - A) Creates a navigation bar
    - B) Displays a large box for calling attention to content
    - C) Styles buttons

Get It Done

- D) Creates a footer

Answer: B) Displays a large box for calling attention to content

13. **Which class is used to create a button group in Bootstrap?**

- A) `.btn-group`
- B) `.button-group`
- C) `.group-button`
- D) `.btn-set`

Answer: A) `.btn-group`

14. **What is the default font size in Bootstrap?**

- A) 12px
- B) 14px
- C) 16px
- D) 18px

Answer: B) 14px

15. **Which class is used to create a striped table in Bootstrap?**

- A) `.table-striped`
- B) `.table-bordered`
- C) `.table-hover`
- D) `.table-condensed`

Answer: A) `.table-striped`

16. **What does the `.img-responsive` class do?**

- A) Makes images circular
- B) Makes images scale with the parent element
- C) Adds a border to images
- D) Changes the image source

Get it Done

Answer: B) Makes images scale with the parent element

    - A) `.bg-danger`
    - B) `.bg-warning`
    - C) `.bg-success`
    - D) `.bg-info`

    Answer: C) `.bg-success`

18. **What is the purpose of the `data-ride="carousel"` attribute in Bootstrap?**
    - A) To pause the carousel
    - B) To start the carousel automatically
    - C) To stop the carousel
    - D) To change the carousel speed

    Answer: B) To start the carousel automatically

19. **Which class is used to create a disabled button in Bootstrap?**
    - A) `.disabled`
    - B) `.btn-disabled`
    - C) `.btn-inactive`
    - D) `.btn-off`

    Answer: A) `.disabled`

20. **What does the `.active` class indicate in a Bootstrap pagination?**
    - A) The link is disabled
    - B) The current page
    - C) The previous page
    - D) The next page

    Answer: B) The current page

Get it Done

21. **Which Bootstrap class is used to create a hover effect on table rows?**

   - A) `.table-hover`

   - B) `.table-striped`

   - C) `.table-bordered`

   - D) `.table-responsive`

   Answer: A) `.table-hover`

22. **What is the purpose of the `.lead` class in Bootstrap?**

   - A) To create a heading

   - B) To style a paragraph with larger font size

   - C) To create a button

   - D) To create a list

   Answer: B) To style a paragraph with larger font size

23. **Which of the following is a valid way to include Bootstrap from a CDN?**

   - A) `<link rel="stylesheet" href="bootstrap.css">`

   - B) `<link rel="stylesheet" href="http://maxcdn.bootstrapcdn.com/bootstrap/3.3.5/css/bootstrap.min.css">`

   - C) `<script src="bootstrap.js"></script>`

   - D) `<link rel="stylesheet" href="bootstrap.min.js">`

   Answer: B) `<link rel="stylesheet" href="http://maxcdn.bootstrapcdn.com/bootstrap/3.3.5/css/bootstrap.min.css">`

24. **What does the `.btn-lg` class do?**

   - A) Creates a small button

   - B) Creates a large button

   - C) Creates a default button

   - D) Creates a disabled button

Get it Done

Answer: B) Creates a large button

25. **Which class is used to create a responsive embed for videos in Bootstrap?**
    - A) `.embed-responsive`
    - B) `.video-responsive`
    - C) `.responsive-video`
    - D) `.video-embed`

    Answer: A) `.embed-responsive`

26. **What is the purpose of the `.progress-bar` class in Bootstrap?**
    - A) To create a button
    - B) To create a progress bar
    - C) To create a table
    - D) To create a list

    Answer: B) To create a progress bar

27. **Which class is used to create a vertical button group in Bootstrap?**
    - A) `.btn-group-vertical`
    - B) `.btn-vertical`
    - C) `.vertical-group`
    - D) `.btn-group`

    Answer: A) `.btn-group-vertical`

28. **What does the `.table-responsive` class do?**
    - A) Makes the table scrollable on small devices
    - B) Hides the table on small devices
    - C) Changes the table color
    - D) Adds borders to the table

    Answer: A) Makes the table scrollable on small devices

Get it Done

29. **Which class is used to highlight text in Bootstrap?**

- A) `.highlight`
- B) `.mark`
- C) `.text-highlight`
- D) `.text-muted`

Answer: B) `.mark`

30. **What is the default line height for Bootstrap paragraphs?**

- A) 1.2
- B) 1.4
- C) 1.5
- D) 1.428

Answer: D) 1.428

31. **Which class is used to create a thumbnail image in Bootstrap?**

- A) `.img-thumbnail`
- B) `.thumbnail`
- C) `.img-rounded`
- D) `.img-responsive`

Answer: A) `.img-thumbnail`

32. **What does the `.btn-link` class do in Bootstrap?**

- A) Creates a button that looks like a link
- B) Creates a link that looks like a button
- C) Creates a disabled button
- D) Creates a large button

Answer: A) Creates a button that looks like a link

Get it Done

33. **Which class is used to create a success alert in Bootstrap?**

- A) `.alert-success`
- B) `.alert-info`
- C) `.alert-warning`
- D) `.alert-danger`

Answer: A) `.alert-success`

34. **What is the purpose of the `.carousel-caption` class?**

- A) To create a navigation bar
- B) To add captions to carousel slides
- C) To create a footer
- D) To style buttons

Answer: B) To add captions to carousel slides

35. **Which class is used to create a horizontal form in Bootstrap?**

- A) `.form-inline`
- B) `.form-horizontal`
- C) `.form-vertical`
- D) `.form-group`

Answer: B) `.form-horizontal`

36. **What does the `.active` class indicate in a Bootstrap button group?**

- A) The button is disabled
- B) The button is currently selected
- C) The button is hidden
- D) The button is a link

Answer: B) The button is currently selected

37. **Which class is used to create a warning alert in Bootstrap?**

Get it Done

- A) `.alert-danger`
- B) `.alert-warning`
- C) `.alert-success`
- D) `.alert-info`

Answer: B) `.alert-warning`

38. **What is the purpose of the `.btn-group-justified` class?**
- A) To create a vertical button group
- B) To create a horizontal button group that spans the full width
- C) To create a disabled button group
- D) To create a button group with icons

Answer: B) To create a horizontal button group that spans the full width

- A) `.list-group-item-disabled`
- B) `.disabled`
- C) `.list-group-item-inactive`
- D) `.list-group-item-disabled`

Answer: B) `.disabled`

40. **What does the `.progress-bar-striped` class do?**
- A) Creates a solid progress bar
- B) Creates a striped progress bar
- C) Creates a circular progress bar
- D) Creates a progress bar with no color

Answer: B) Creates a striped progress bar

41. **Which class is used to create a primary button in Bootstrap?**
- A) `.btn-default`

Get it Done

- B) `.btn-primary`
- C) `.btn-success`
- D) `.btn-info`

Answer: B) `.btn-primary`

42. **What is the purpose of the `.table-bordered` class?**
- A) To create a table with no borders
- B) To create a table with borders on all sides
- C) To create a table with only horizontal borders
- D) To create a table with only vertical borders

Answer: B) To create a table with borders on all sides

43. **Which class is used to create a success progress bar in Bootstrap?**
- A) `.progress-bar-success`
- B) `.progress-bar-info`
- C) `.progress-bar-warning`
- D) `.progress-bar-danger`

Answer: A) `.progress-bar-success`

44. **What does the `.btn-xs` class do?**
- A) Creates a large button
- B) Creates a small button
- C) Creates a default button
- D) Creates a disabled button

Answer: B) Creates a small button

45. **Which class is used to create a hover effect on list group items?**
- A) `.list-group-hover`
- B) `.list-group-item`

Get it Done

- C) `.list-group-item-hover`
- D) `.list-group-item-active`

Answer: B) `.list-group-item`

46. **What is the purpose of the `.alert-danger` class?**
    - A) To indicate a successful action
    - B) To indicate a warning
    - C) To indicate a dangerous or negative action
    - D) To indicate an informational message

    Answer: C) To indicate a dangerous or negative action

47. **Which class is used to create a responsive image in Bootstrap?**
    - A) `.img-responsive`
    - B) `.img-fluid`
    - C) `.img-rounded`
    - D) `.img-thumbnail`

    Answer: A) `.img-responsive`

48. **What does the `.carousel-inner` class do?**
    - A) Creates the carousel indicators
    - B) Wraps the slides in the carousel
    - C) Adds controls to the carousel
    - D) Styles the carousel captions

    Answer: B) Wraps the slides in the carousel

49. **Which class is used to create a block-level button in Bootstrap?**
    - A) `.btn-block`
    - B) `.btn-full`
    - C) `.btn-large`

Get it Done

- D) `.btn-wide`

Answer: A) `.btn-block`

50. **What is the purpose of the `.alert-info` class?**

- A) To indicate a successful action
- B) To indicate a warning
- C) To indicate an informational message
- D) To indicate a dangerous action

Answer: C) To indicate an informational message

51. **Which class is used to create a rounded image in Bootstrap?**

- A) `.img-rounded`
- B) `.img-circle`
- C) `.img-thumbnail`
- D) `.img-responsive`

Answer: A) `.img-rounded`

52. **What does the `.btn-group-vertical` class do?**

- A) Creates a horizontal button group
- B) Creates a vertical button group
- C) Creates a justified button group
- D) Creates a disabled button group

Answer: B) Creates a vertical button group

53. **Which class is used to create a warning progress bar in Bootstrap?**

- A) `.progress-bar-success`
- B) `.progress-bar-info`
- C) `.progress-bar-warning`
- D) `.progress-bar-danger`

Get it Done

Answer: C) `.progress-bar-warning`

54. **What is the purpose of the `.carousel-control` class?**

- A) To create the carousel indicators
- B) To add navigation controls to the carousel
- C) To style the carousel captions
- D) To create the carousel slides

Answer: B) To add navigation controls to the carousel

55. **Which class is used to create a disabled pagination link in Bootstrap?**

- A) `.pagination-disabled`
- B) `.disabled`
- C) `.pagination-inactive`
- D) `.pagination-off`

Answer: B) `.disabled`

Short Questions

1. **Define a media query and its purpose in responsive web design.**

- **Answer:** A media query is a CSS technique that allows the application of specific styles based on the conditions of the device, such as screen size or orientation. It enables responsive web design by adapting the layout and appearance of a webpage to different devices.

2. **What is the difference between `max-width` and `width` properties for images?**

- **Answer:** The `width` property sets the width of an image to a specific value, which can cause the image to scale beyond its original size. The `max-width` property, on the other hand, restricts the image from exceeding its original size while allowing it to scale down responsively.

3. **Explain the concept of "Mobile First" design.**

Get it Done

- **Answer:** "Mobile First" design is an approach where the design process starts with mobile devices in mind, ensuring that the website is optimized for smaller screens before adapting it for larger screens. This approach enhances performance and user experience on mobile devices.

4. **How can you use
